

Amendments to the Specification:

Please replace the Fig. 5 description with the following amended description:

Fig. 5 is a side elevational view of one end of the body showing the circular motion which the die head is mounted with respect thereof; [[and]]

Please replace the Fig. 6 description with the following amended description:

Fig. 6 is a schematic view showing the manner in which the die head may be manipulated by the user in a tight position such that a circular cutting path is achieved while providing substantially only forward and rearward motion to the tool and connected drill[.]; and

After the Fig. 6 description, please add the Fig. 7 description as follows:

Fig. 7 is a perspective view showing the manner in which the die head is hand manipulated to control the cutting path.
